

WEB BALTIMORE CHAPTER 2010 Corporate Sponsorship Program

Thank you for your interest in WEB Baltimore's Corporate Sponsorship Program. This Program is a great opportunity to promote your organization and help the WEB Baltimore chapter. Here are some details about WEB Baltimore and the 2010 Corporate Sponsorship Program:

Who we are:

WEB, Worldwide Employee Benefits Network, is a nationwide, non-profit educational association dedicated to the continuing education of employee benefits professionals. The Baltimore chapter is the largest WEB chapter in the North East, making WEB one of the premier employee benefits organizations in Mid Atlantic. Each month, we host a program on a topic related to employee benefits.

As a non-profit organization, WEB depends largely on the support of its members and other organizations in the employee benefits business. Our Corporate Sponsorship Program will provide a few select organizations with valuable exposure while assisting WEB in defraying some of its operating costs. Here are the benefits to you:

Promotion

As a Corporate Sponsor of one of our regular monthly meetings, you will be able to:

- Display and distribute information about your company's services and "network" with benefits professionals who attend the meeting;
- Receive a complimentary meal for one attendee from your organization.
- Enjoy a program on a topic of current interest to benefits professionals
- You are able to give brief overview of your organization prior to the start of the meeting.

High Visibility

Your organization's name will also be featured on the meeting announcements for the meeting you sponsor. This announcement is sent via e-mail to over 400 individuals on our active list.

All these benefits are available to you at the reasonable cost of \$250 for each meeting you elect to sponsor.
